HBJGH Series of Hose Swivels are designed for using between the hose and fuel nozzle, or between the hose and other equipment. They provide 360 swivel action. The full-circle swivel reduces the physical strain of aligning the nozzle with fill-pipe.

Technical Specifications:

Body Material: High-quality Brass
 Bushing(male thread): High-quality Brass
 Surface Treatment: Electroplated Chrome Finish for corrosion resistance and a professional appearance
 Design: Reinforced structure for improved strength and durability under pressure
 O-ring: Buna-N or Viton for option
