

50L/Min Explosion-Proof Electric Transfer Pump Assembly — Efficient Fuel and Liquid Transfer Solution

ETM-50B-DC12V/DC24V Series of Explosion-proof Electric Transfer Pump Assembly is generally combined with a DC12V or DC24V transfer pump, 4M delivery rubber hose, 2M inlet clean plastic hose, filter(optional), manual nozzle (automatic shutoff fuel nozzle with 360 degree nozzle swivel for option), as well as check valve. Easy installation, can quickly connected to fuel or oil drum, low operating cost, small size.

Have following regular items:

1. **ETM-50B-DC12V** (Power of 1/4 HP/187W)
2. **ETM-50B-DC24V** (Power of 1/4 HP/187W)

Features:

- a. Cast Iron body, with 100% bronze rotor and carbon vanes
- b. Built-in strainer, bypass valve prevent big massiveness
- c. 2' threaded base for tank opening
- d. Corrosion-proof, water proof, petrol transfer solution
- e. Nozzle hanger available

Technical Specification:

Nozzle	Auto. Shut-off Nozzle or Manual Nozzle for option
Inlet Size	1"
Outlet Size	3/4" or 1" optional
Speed	2600rpm
Seal Type	Mechanical Seal
