

High-Precision 4-Digit Mechanical Flow Meter for Non-Commercial Fuel Measurement

NUTATING DISK SYSTEM

FM-120 4 digits mechanical flow meter to measure the exact quantity of the dispensed fuel. They are designed for noncommercial use only. Reliable, inexpensive, easy to install and simple to calibrate on the workplace. Mechanical readout device with rotating wheels. 4 digital subtotals is resettable to zero, 8 digital total readouts is not resettable to zero.

Technical Specification:

Model No	FM-120L
Body Material	Plastic And Aluminum
Accuracy	±1%
Flow Range	20-120L/min
Inlet/Outlet	1"
