

## High-Pressure Flexible Metal Hose for Fluid Delivery

HFH Series of Flexible Metal Hoses are usually used in liquid delivery systems as a flexible pressure-resistant pipe component, it compensates for the mutual displacement of pipeline or machine and equipment connections, absorbs vibration energy, and can play a role in vibration reduction and noise reduction. It has many characteristics such as

### Technique Specification:

Bellow Pipe Body: Stainless Steel  
Braiding: Stainless Steel  
Flange: Stainless Steel  
Connection Method: Flange or Thread

### Specifications:

Model	Size	Length	Connection
HBFH-40F-120	1.5 Inch	120 mm	Flange
HBFH-50F-120	2 Inch	120 mm	Flange
HBFH-65F-120	2.5 Inch	120 mm	Flange
HBFH-80F-120	3 Inch	120 mm	Flange
