LYYB-F-T Transparent Reusable Fuel Filter Kit — Portable High-Flow Diesel Filtration

Ensure optimal performance and protect your engine from harmful diesel fuel contamination with our In-Line Fuel Filter Kit. Designed to remove water and particulate matter commonly found in fuel from filling stations, this filter is ideal for portable fuel filling and transfer systems.

Key Features:

- Efficient filtration of water and up to 10% particulate matter
- Max Flow Rate: 80 LPM (21.13 GPM) — supports high-volume transfers
- Inlet/Outlet: 1" BSP Female ports for easy system integration
- Clear bowl allows visual inspection of fluid condition
- Drainable bowl design for easy maintenance
- Durable aluminium filter head for long-lasting performance

Dimensions:

- L: 185 mm (7.28 inch)
- W: 108 mm (4.25 inch)
- W1: 120 mm (4.72 inch)

This fuel filter kit is an essential component for ensuring clean diesel delivery, reducing engine wear, and extending equipment life.
